

Poly Spill Deck(Single Drum)

SPP401

Acquired CE Certification, comply with the regulations of EPA 40 CFR 264.175 of EPA and SPCC as well as U.S. NPDES.

Poly Spill Deck

The poly spill deck is lower than the pallet, thus saving the space, improving the safety, efficiency and facilitating handling of oil drums and chemical drums. Generally, the poly spill deck is used for storing oil drums, chemical drums, etc., instead of transferring such containers. When installed in a workshop, the spill deck can be used for various operations (oil extracting, filling and separating, etc.), as a platform. It is also equipped with the same grate and drain holes. Various decks can be assembled to form a stable and reliable workstation.

Poly Spill Decks

Product	200L Drum Quantity	Capacity (Gal/L)	Loading Capacity (Kgs.)	Ext. Dimensions (H×L×W/cm)	Forklift Operation	Model
Spill Deck Poly Spill Deck(Single Drum)	1	11/42	600	15×68×68	NA	SPP401

Chemical Spill Prevention and Control

- Thicker side border and central load-bearing structure is very strong, which can firmly carry fully- loaded oil drums, chemical barrels and other storage containers and equipment.
- Polyethylene material, anti-UV, anti-rust, anti-corrosion, suitable for most chemicals.
- Orange anti-skid gratings, it will not rupture at full load, and the gratings are removable, easy for rapid treatment of liquid spill.
- The tray can use forklift, platform can spill by leaking into sheng workstation.
- Help to keeping the floor dry to avoid slip and fall
- All sheng drip tray and platforms can be nested stack, ensure orderly storage and leakage prevention of oil drums and chemical barrels
- In line with the regulations of EPA 40 CFR 264.175 of the U.S. Environmental Protection Agency (EPA) and the regulations of Spill Prevention and Control Act (SPCC) as well as U.S. NPDES.

2-drum spill pallets with stackable structure save space and transportation costs

Hexagonal drain plug facilitates drainage

2-drum and 4-drum spill pallets with stackable structure save space and transportation costs

2-drum and 4-drum spill pallets have forklift slots for convenient forklift operation to improve efficiency (*forklift overload prohibited)

Hydraulic carrying vehicles can also be used to move pallets, which is more convenient

Poly spill pallet ramps make it easier to move large articles
